**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Please do not let a large company such as AT&T monopolize over our choice of telecommunications. We should all have the freedom to make a choice in the telecommunication company we select, especially if our choice is to support a smaller company who is willing to help the end users. Any large company who is trying to stagnate competition is not helping the economy to grow in prosperity. Everyone can benefit from competition whether its a larger or a smaller company. Price increases from a large company is another reason we need choices, besides the ability to choose broadband or fiber. A good example is the choices of commodities from around world which benefits us all whether we buy their products or buy our own. The world does not prosper and expand with only one company. Keep in mind having competition and choices is what we all look for.

Thank you,

Gloria Choy
